Employee Remote Work and Benefits Guide

1. Overview and Core Collaboration Hours

Enterprise Knowledge Copilot supports a flexible remote-first hybrid work model. Team members may work from home, regional hubs, or approved remote locations.

To maintain synchronization across distributed engineering and product squads, all full-time employees are expected to be available for synchronous collaboration during core hours: 10:00 AM to 3:00 PM Eastern Time (ET), Monday through Thursday.

2. Monthly High-Speed Internet Stipend

All active remote employees are eligible for a monthly internet connectivity stipend of $75.00 USD.

Stipends are processed automatically via payroll on the final business day of each calendar month. No manual receipt submission is required for the internet stipend.

3. Home Office Equipment Reimbursement

Upon joining, eligible remote staff receive a one-time home office setup reimbursement budget up to $1,200.00 USD.

Qualifying purchases include ergonomic desks, chairs, external 4K monitors, noise-cancelling headphones, and webcams.

Expense receipts must be submitted via the Expensify portal within 60 calendar days of employee start date.

4. Travel and Quarterly Onsites

All travel expenses for mandatory quarterly engineering summits must be booked using the corporate Navan travel portal at least 21 days in advance.

Meals during travel are reimbursed up to the daily per diem limit of $85.00 USD per day.
